da **Amanda** veniamo a sapere che Watsonville è la città delle ... fragole

*I live in Watsonville, California, the home of the strawberries. Even though I live in Watsonville, I always go to Santa Cruz which is only 20 minutes away. Since we live right next to the beach, I love going surfing. Just kidding. I don't know how to surf so I just go boogie-boarding. In your country I am very interested in the architecture. Especially the Trevi Fountain in Rome. When was the fountain built? What's your favorite meal? I don't really have a specific part of Italy that I want to learn about. I want to learn everything about Italy. If there were a place to pick a city in Italy, I would choose Rome.*

**Brenda** ci ricorda che la maggior parte degli studenti della sua scuola sono ispanici: Mexican American

*.... Mi nombre is Brenda! But I like spelling it Brenduh. I come to you from Watsonville California 95076. Only 7 hours away from Hollywood. But I've only been there once. Sad, I know. I'm really really excited to be communicating with you. And may I show you by saying OMIGID. I don't know if you guys have heard about My Space. But you should get one. It's oodles of fun. Watsonville is pretty fun. Pretty being the key word. It's pretty awesome. Very peaceful and small. But the weather is pretty wickedy wickedy wack. It rains and then it's sunny and then it's stormy. Oh yeah, I forgot to tell you I'm a freshmen. I'm a vegetarian, so I prefer fresh tofu. Oh yeah, I am supposed to tell you about what I want to learn. Food. I know that a lot of food we think you like might not be true. So what do you guys really eat? When you guys eat McDonalds and stuff do you call it American food? You should. Join PETA and become vegetarian. I really recommend it. You'll feel better. I really wanted to learn about your culture. I really wanted to learn about festivals and a whole lot about the pretty places there. Oh yeah, I'm a little tiny bit Spanish from my grandfather and I'm Mexican American. Well, hasta luego.*

**Carlos** ama il calcio e il basketball (ok) ma qualcuno ha mai sentito parlare di Halo 3??

*... I like to play soccer and basketball. I also like to play video games. My favorite game is Halo 3. My favorite subject in school is Math. I would like to learn about your culture. What kind of sports do you play? What are your favorite hobbies? What do you do in your spare time?*

**Christian** è entusiasta della sua scuola ma ha anche tante domande sul nostro paese ...

*....the school I go to is PV High School. In this school is fun. I like it a lot. All my friends are here. It's great. What I wanted to know about your country is what you guys do there for fun. What kind of food do they make over there? Do you like sports? I have been researching festivals in Italy. What kind of festivals do you guys have?*

**Jairo** ha le idee chiare riguardo alla TV ...

.... *One of my favorite TV shows is George Lopez. This show is a comedy show about a man named George Lopez and his everyday life at work, with his friends, and family.*

**Betty** ci racconta i suoi sogni e le sue aspirazioni ma c'è qualcuno che ha mai sentito parlare di

.... "Kul Van d"?? non importa .... forse un giorno sarà un idolo anche da noi ....

... *Well all tell you a little about myself. I live in Watsonville California in the United States of course. I am a freshman at PVHS, and 14 years old for just a couple more days and I'll be turning 15. I like to look at the positive things most of the time. I love listening to music like Rock, Alternative, & Metal. Some of the things I wish I could do is play the guitar and learn how to surf. Well, I have many dreams. I want to travel the world. That's my goal and be someone in life. I also play sports like track and field, cross country and soccer. One of the persons I'd like to meet is "Kul Van d". She's an idol to me. Well that's just a little about myself.*
